Moving to Shibboleth at the University of Dundee

Matthew Phillips
Systems Librarian

LIBRARY & LEARNING CENTRE

Contacting publishers

- Are they preparing for Shibboleth?
- When will they be ready?
- Will they allow IP authentication?
- Do they support EZProxy?
- Do they have your IP range correct?
- Transfer of personalisation: any plans?

See http://access.jiscinvolve.org/federated-access-and-publishers/

FURTHER EDUCATION
Federated Access and Service Providers
A list of publishers that JISC is currently in discussions with regarding federated access management and their known status are provided below. If you know of other publishers that you would like to see on this list, or have a status update, then please email the JISC Access Management Outreach team.
We strongly encourage all institutional librarians to contact publishers directly to ensure that users are able to access resources via the UK federation where possible, and to indicate your demand for federated access where it is not currently available.
A full list of members of the UK federation can be found on the UK federation website.
Publisher lists and their current status
Publishers - full list
Publishers - live service (see update dates in left-hand column)
Publishers - compliant by 31 August 2009
Publishers - plan to be compliant but no confirmed dates
Publishers - at risk or no information regarding compliance
OK (1.1s) 5/5 stylesheets 4/4 objects

Testing the Shibboleth implementations

- Have your IdP ready!
- Release all core attributes (except eduPersonPrincipalName) by default
- Off-campus testing facility useful
  - dial up
  - broadband
  - eduRoam: check IP ranges again
  - at home
- Move people over early if you can

EZProxy as a fall-back

- Easy to set up
- Can use Shibboleth authentication!
- Set up all the Athens services
  - Even if they say they will be ready
- Can set up non-Athens services too
- May lose personalisation

Testing personalisation

- Is personalisation tied to the Athens account?
- Is a transfer mechanism planned?
- How many users are using the features?
- How important is the personalisation?
- Get information out to users in plenty of time

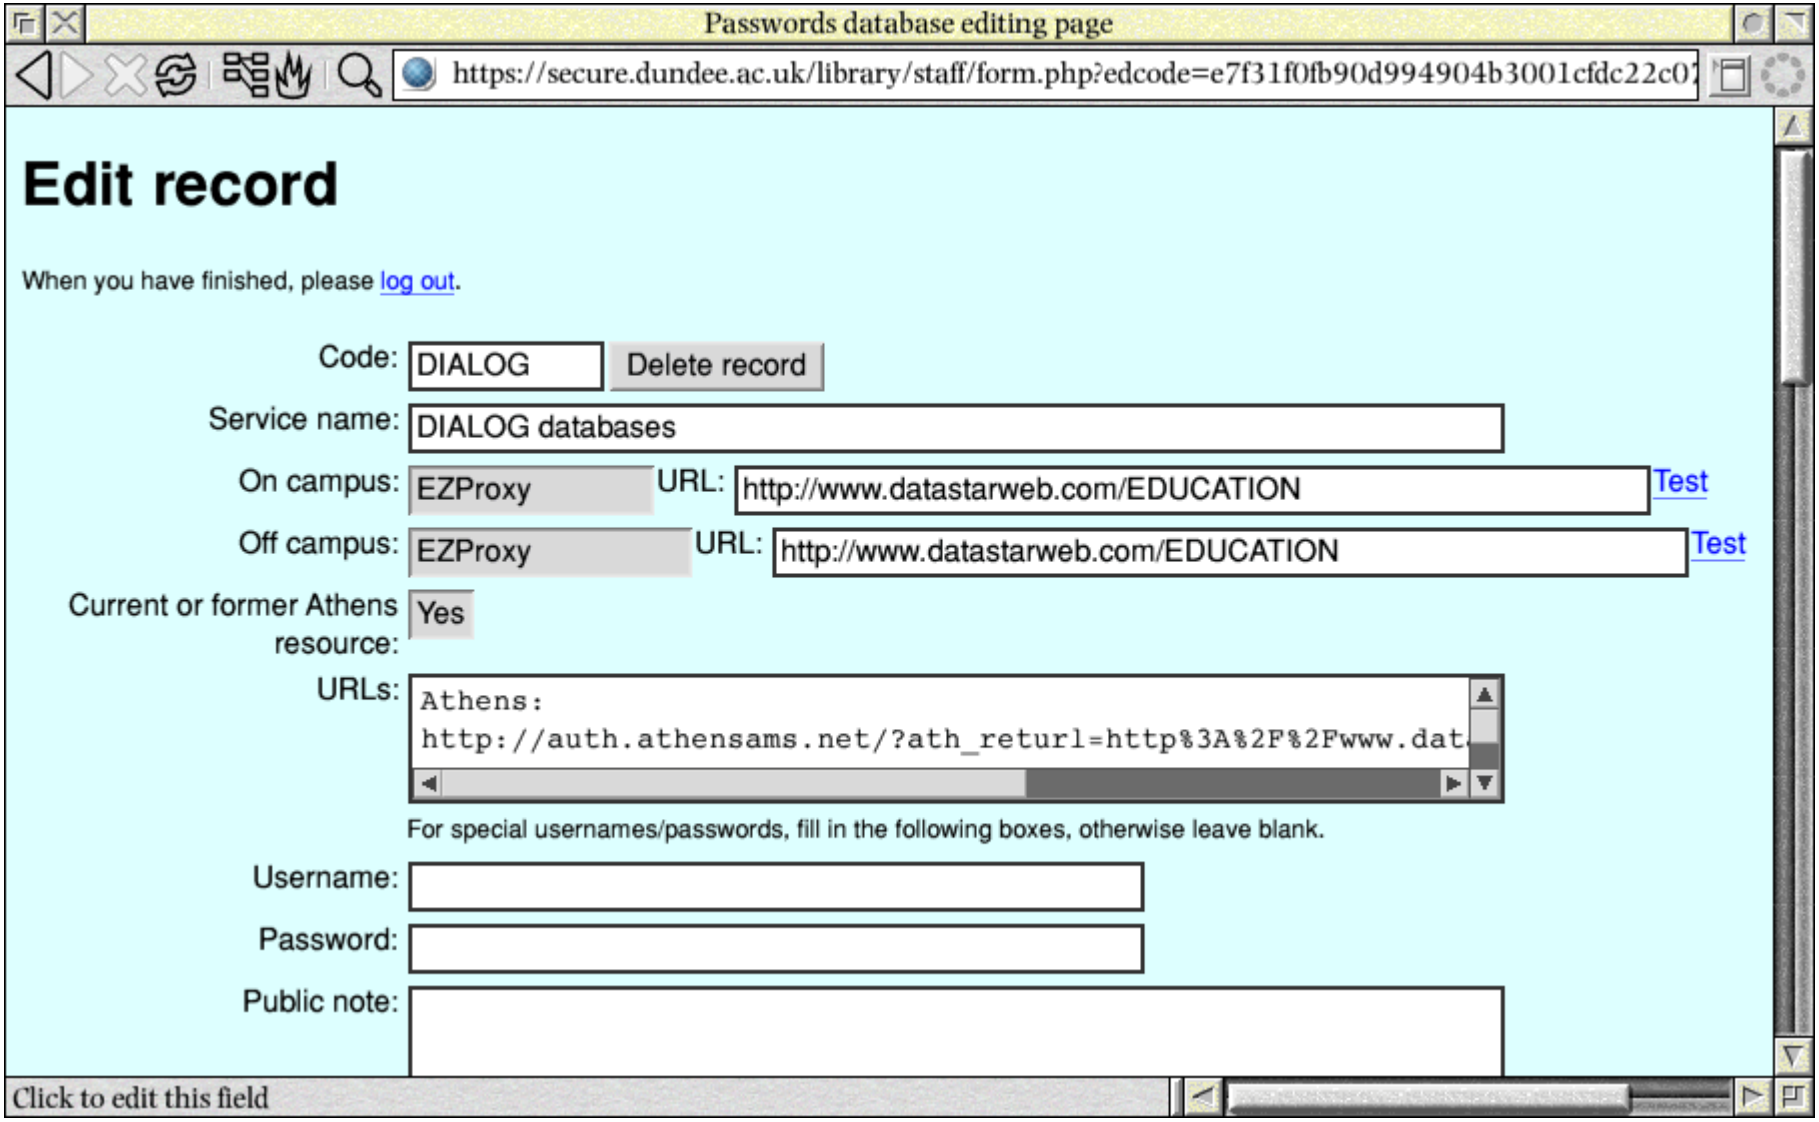
Accessing British Education Index
On campus
Access is via the Library proxy server.
• Connect to British Education Index
Off campus
Access is via the Library proxy server.
• Connect to British Education Index
Personalized features: saved searches, alerts
If you have saved searches or set up alerts, these are tied to your Athens username and will not be accessible after the end of July 2008.
E-mail alerts will probably continue to be delivered to users following 31st July, but users will be unable to log in to their former Athens accounts to modify or cancel these alerts.
We advise you to log in before 31st July and note down any saved searches or alerts which you wish to retain. It is probably best to cancel the alerts and to recreate them after 31st July via the new UK Federation login method.
Unfortunately Dialog will not be adopting the UK Federation login immediately. The Library will continue to make the Dialog databases available on and off campus via a proxy server, but for a while users will be unable to save searches or create alerts.
OK (0.8s) 4/4 stylesheets 62/62 objects

Managing the information

- Web-mounted database (in PHP/MySQL)
- Admin side accessible off campus
- Library web pages pull links from database



Passwords database editing page
https://secure.dundee.ac.uk/library/staff/form.php?edcode=e7f31f0fb90d994904b3001cfdc22c07
Edit record
When you have finished, please log out.
Code: DIALOG Delete record

what's new?
Electronic resources login
The Athens system was replaced on 1st August 2008 by a new system.
• Further information on the replacement of Athens
Please follow the links from the following list to find out how to log in to resources which were formerly authenticated via Athens. For some services there is additional information explaining what will happen to personal settings such as saved searches, alerts and annotations.
• 17th and 18th Century Burney Collection
• 19th Century British Library Newspapers
• a-n The Artists Information Company
• Adept Scientific (Adept4Education)
• American Accounting Association
OK (0.9s) 4/4 stylesheets 62/62 objects

Support issues

- Putting username/password in wrong box
- Using wrong username
- Where is MyAthens?
- Access to logs harder
- Loss of personalisation

Still to do

- Lobby publishers to support Shibboleth
- Lobby publishers to improve login design
- Shibbolise your own services
- WAYFless URLs

Central bank communication and output stabilization
By Marco Hoeberichts*, Mewael F. Tesfaselassie†, and Sylvester Eijffinger‡
*De Nederlandsche Bank and University of Amsterdam, Financial Research Department, P.o.Box 98, 1000 AB Amsterdam, The Netherlands;
e-mail: M.M.Hoeberichts@dnb.nl

e-mail: s.c.w.eijffinger@uvt.nl
Central banks around the world have a reputation for being secretive about their operations and market assessments. It is sometimes argued that central banks need flexibility and therefore cannot be fully transparent. We find that this explanation does not carry through in a forward-looking New Keynesian framework, where transparency about the central bank's forecasting procedures improves output stabilization. We also show that higher transparency increases optimal conservatism, as the benefits from higher transparency in terms of output stabilization are greater the more conser-
